THE ASTRONOMERS DREAM

maybe by Ferdinand Zecca? (from before 1910)

kit parker films

a george melies type early trick film. this film unites almost all special effects known at the time. a great example of early cinema magic!

an astronomer travels in his dreams to the stars where he meets a tribe of extraterrestrials who chase him back to earth.

good condition, color, hand colored in orange and tinted in red (the color is fading to red, so everything is quite red...), no soundtrack, no intertitles, about 60m, EURO 80

THE WHIZZARDS APPRENTICE
